## (54) SEALING STRUCTURE FOR OUTER PERIPHERY OF GLASS LID FOR SUNROOF

(57)Abstract:

**PROBLEM TO BE SOLVED:** To improve an appearance around a glass lid of a sunroof of an automobile, and to prevent heat deterioration of a frame member of the glass lid.

**SOLUTION:** An upper end face of the frame member 4 made of a synthetic resin provided on an outer periphery of the glass lid 3 is set to be lower than an outer surface of the glass lid 3, and a sealing wall 52 of a weather strip 5A mounted to an outer periphery of the frame member 4 is extended so as to cover the upper end face of the frame member 4 and prevent exposure of the frame member 4. A tip of the sealing wall 52 extended is made to abut to an outer peripheral end face 31 of the glass lid 3 such that the outer surface of the glass lid 4 becomes flush with an outer surface of the tip of the sealing wall 52.
